Turlock, California 95381 Email: OLAssumption@earthlink.net

MEMO TO PHOTOGRAPHERS AND VIDEO PEOPLE

1. The church is a place of worship and prayer.
2. Photography and video should be **done with great restraint** as to not create a distraction by constant movement on the part of camera or video people.
3. Video tape is permitted on the choir loft in the back and 8 feet from the sanctuary on the side of the baptismal font. It is allowed on the condition that it does not use additional lighting and that the operator remains away from the sanctuary area of the church.
4. Using the sanctuary area as a studio is not permitted. **The wedding party has one hour and a half for the wedding and the pictures.** The sanctuary lights are not to be on for too long. We ask photographers to show restraint in the number of pictures taken.
5. No one, other than the professional photographer or one video person, should leave their place in the pew to take pictures or to video. Only 1 video camera is allowed downstairs. Others have to use the choir loft in the back.
